## Lamb Leg

### Product Description

This generous cut, which weighs about nine pounds, is the perennial choice for holiday feasts. The whole leg, which comprises both the narrow shank and the plump sirloin can be simply seasoned with salt and pepper or a spice rub and roasted with the bone in.

# Lamb Shoulder

## Product Description

As a rule, lamb is fairly tender, which means that most cuts of lamb can be cooked using dry heat, even when the corresponding cut of beef or pork might not be as soft. One example of this is the Lamb Shoulder. The Lamb Shoulder is often roasted in which case it is usually boned and rolled; it can be stuffed, as well.

# Lamb Steak

## Product Description

Lamb Steaks come from the leaner part of the shoulder and normally come 'bone-in'. The bone-in steaks are cut from the center of the shoulder, varying in size. Lamb Steak is easy to prepare and offers a healthy alternative to your steak choice.

# Lamb Shank

## Product Description

Lamb Shanks come in both fore shanks and hind shanks. Lamb Shanks practically melt off the bone when they are slow cooked. Lean on fat but big on flavor, the meaty shank is perfect for braising in a slow, simmering broth.
